Composition of Committee Membership:

Senator responsibilities are to serve on one Committee. All senators must hold one position within each Committee. Therefore, there may be a total of 25 seats in each committee. If the number of members in one committee changes, another must also change to correspond with that change.

Committees

The purpose of the Committees is to engage our members in the day-to-day operations of the organization. These committees are the organization's standing committees, each of which is responsible for a different aspect of the organization's functions. It is in these committees that major decisions are discussed, thought-through, and made. Programs, events, and services are all developed and run through these committees. The goal of each of the committees is to help to further develop the organization and the services that it offers.

1. Budget and Finance Committee – Vice President of Finance as Chair

The purpose of this committee is to distribute the student activity fee in a fair manner to all the student government organizations. The committee, of three (3) or one-fourth ($\frac{1}{4}$) (whichever is greater) of Senators and the Vice President of Finance, hears clubs and organizations request for capital purchases, conference funding and additional allocations.

2. Marketing & Publicity – Vice President of Marketing & Publicity as Chair

The purpose of this committee will oversee the organization's social media pages, as well as any other forms of publicity for the organization. The committee must facilitate all aspects of the Student Government Penmen Pride Program. The committee will oversee the registration of events, data collection, prize distribution and publicity for the program. The committee is also responsible for recruitment and elections. The committee will also help plan all SGA major events.

3. Student Advocacy Committee – Vice President of Student Advocacy as Chair

The purpose of the committee is to facilitate all aspects of the student suggestion process. The committee is responsible for all intake, cataloging, distribution of and response to all suggestions from the student body. This committee is also responsible for ensuring that senators receive student feedback to utilize in their Student Concerns positions.

Student Concerns

Student Advocacy is responsible for seeking, collecting, sorting, researching, investigating, resolving, and reporting student concerns to the SNHU community. As a group, individuals will be assigned student concerns as they are received and will be responsible to follow-through the full process until a resolution is found or agreed upon and communicated back to the constituents. Senators not formally sitting on Student Advocacy may be assigned concerns to be responsible for or may take on larger student initiatives in a team when applicable. The Vice President for Student Advocacy will manage the student concern process from start to finish, ensuring proper investigation, follow-through, and communication about resolutions.

Policy & Procedure Committee – President & Vice President of Internal Affairs as Co-Chairs, 4 Senators, Vice President of Finance

The committee will review governing documents, such as the Student Government Constitution and Code of Conduct on an ongoing basis. The group will recommend amendments to those documents, which will then require ratification from the Senate.
